

Cheerful Suns of Happiness

Significance of the New Women Division song “Cheerful Suns of Happiness”

A new SGS Women Division (WD) Song titled, “Cheerful Suns of Happiness” has just been launched!

First presented at the occasion of Singapore-Japan Soka Women General Meeting cum Friendship Exchange held at the SGS Headquarters on 7 April 2024, this song depicts SGS WD’s determination to become cheerful suns of happiness who strive courageously in unity to fulfil our mission for kosen-rufu and repay gratitude to our mentor, Ikeda Sensei.

This song was inspired by the following guidelines that Ikeda Sensei gave to SGS WD and YWD in 2011:

Be WD and YWD who are:

Always bright and in high spirits

Always wise and cheerful

Always on good terms and in harmony

Magnificent suns of happiness

Within the lyrics also includes virtues of the cherry tree that endures the harshest winter to bring forth beautiful cherry blossoms, the indomitable mountain unshaken by any tempest and the cheerful and elegant Kaneko orchid that brings delight and assurance to all. All these are qualities that SGS Women Division will strive to imbue, while keeping our mentor in our hearts, as we foster the youth to realise the great vow for kosen-rufu.
