

# Youth! Scale the Mountain of Kosen-rufu of the 21st Century

## Background of the Song:

SGI President Ikeda composed this poem in Oita Prefecture, Kyushu, on December 10, 1981, and presented it to the members of the Soka Gakkai youth division. The poem is filled with his intent to fully entrust the future of kosen-rufu to the youth.

Since then, the song "Youth, Scale the Mountain of Kosen-rufu of the 21st Century", which has been born from the feature poem, has been sung throughout the country.

\*Forever youth arise  
Hope is to realize  
The truth that lives inside  
To manifest our dream for peace

Forever with Sensei we fight  
Never stop  
Till our dream, our dream is alive  
And we have won\*
