Soka Preschool is founded upon the principle of value-creating, humanistic education, one where both the programme and teacher-student relationship are focused on developing each child to his or her fullest potential.

The school's motto is
"To be strong, righteous and free."
This motto reflects our vision of the children. Children enjoy learning; children acquire necessary life skills and values; children cultivate healthy and responsible characters and contribute to society.

At Soka Preschool, children learn through play and project-inquiry based learning which encourages children to explore a project of interest, develop thinking skills, creativity, and cultivate their development holistically.

- Soka Kindergarten will soon expand its operations to **include childcare services**.
- For a start, the preschool curriculum will cover students from **4 to 6 years old** i.e. Nursery (N2) to Kindergarten (K1 & K2), with hours from **7am to 7pm** for full day sessions. Half-day programmes are also available upon request.
- This new milestone is in view of the rising demand from working parents to care off their children at a childcare facility, yet not compromising on the holistic

development of their child through our humanistic Soka Education that focuses on unearthing the potential of every child.

- For parents interested to register their child(ren) in Soka Preschool, kindly fill up online form <https://tinyurl.com/sps-openhouse> and the school be in touch as soon as possible. Registrants would receive an invitation email to join the school’s monthly open house to get to know more about the curriculum, view the school facilities and environment virtually, and also speak to the school leaders.
